Monthly Meeting Notice

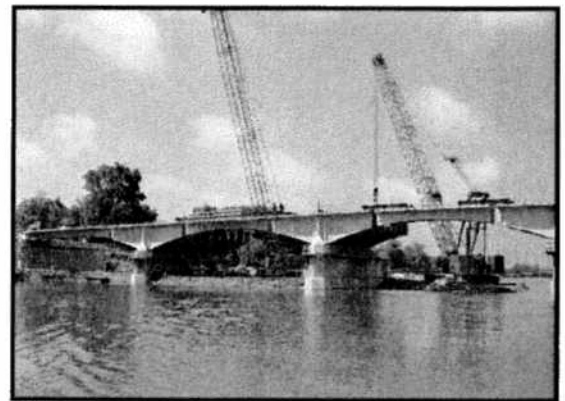

NOVEMBER MEETING

Wednesday- November 15, 2006

“Perry Street Bridge (HEN-108)”

Speaker: Jim O’leary, P.E. of HNTB

Program: Jim will discuss that when it became necessary to replace the 700 foot long Perry Street Bridge, the only crossing of the Maumee River within 5 miles of downtown Napoleon, Ohio, ODOT wanted to do it in less than one year. The new bridge had to be built in the same location as the existing bridge and had to resemble the old structure, a 7-span concrete arch bridge. A methodology was developed which enabled the demolition and replacement to take place in 9 months. The new structure is a variable depth, spliced deck bulb-T girder bridge post-tensioned in the longitudinal and transverse directions.

Location: Stancato’s – 7380 State Road, Parma, Ohio

Lunch: Lunch will be Buffet Style with Broasted Chicken, Sausage w/ peppers and onions, Penne pasta in premier sauce, California vegetable medley, salad and rolls & butter.
