Columbus Road Lift Bridge Truss Tour

Program: American Bridge will offer ABCD a tour of the construction yard where the Columbus Road Lift Bridge Lift Span Truss is being assembled. The 250' through-truss span is currently being erected next to the Carter Road Lift Bridge in downtown Cleveland before it is floated down the Cuyahoga River and lifted into place. The replacement of the lift span truss is part of the \$34 million rehabilitation currently being performed on the Columbus Road Lift Bridge. This rehabilitation project also includes a complete replacement of the mechanical and electrical components of the bridge and various improvements to the towers, abutments, and piers. The tour of the site will be followed by a social at Hoople's, which is adjacent to the Columbus Road Lift Bridge. **This tour has a maximum capacity of 25 people.**

Tour attendees will need to dress appropriately, with long pants and hard-soled, closed-toed shoes, and will need to bring a hardhat, safety vest and safety glasses for the tour. All of the safety precautions must be followed.

Location: The American Bridge yard is located in Cleveland's Industrial Flats at 1948 Carter Road. Free parking will be available in the lot across the street from the yard. Please meet on the sidewalk in front of the yard.

Time: 4:00 p.m. Tour
5:00 p.m. Social

Cost: \$15.00/person – Price includes 1 drink and pizza at social afterwards.

RSVP: Contact Elaine Magoch at (216) 771-1090 or email: emagoch@dlzcorp.com

One (1) Continuing Professional Development hour will be provided for this presentation. If you attend and sign in at the meeting, and wish to obtain CPD credit, please go to our website (<http://www.abcdneoh.org/PD.htm>) following the meeting to obtain the sign-in sheet and announcement.

Kindly RSVP by Friday, April 19, 2013

No-shows and Cancellations after the reservation deadline may be billed.
