

Association for Bridge Construction and Design Central Ohio Chapter

JEREMIAH MORROW BRIDGE TOUR

Date: Wednesday, August 26, 2015

Location: Bus Provided from ODOT Central Office
1980 W. Broad Street, Columbus, OH 43223

Speakers: Daniel Mendel, P.E. - ODOT, Resident Engineer
Ryan Cocco - Kokosing Construction Company, Project Manager
Luis Ramos, P.E., Ph.D - TY Lin International, Geometric Control Consultant

Program: Join ABCD for a tour of one of Ohio's most exciting and unique bridge projects: The replacement of the 2,252 foot long Jeremiah Morrow twin truss bridge. The new bridges feature twin cast-in-place concrete segmental superstructures and piers in excess of 200 feet tall. Bus transportation, technical program, lunch, and tour will be provided. The program begins with a presentation from key construction staff on this challenging project. Following lunch, we will tour the new structures and learn first-hand about segmental bridge construction as well as the challenges presented by the difficult site. With the second segmental superstructure underway, this is a great time to tour. Space is limited, so sign up early for this great opportunity.
